

Sprint 3 Report
Data Visualization
11/18/18

Actions to Stop Doing:

Individual work - we are at the point of integrate the individual parts, minimal work should be done in isolation

Scrum Meeting Length - Scrum meetings should not go over 15 minutes, work done together after can be separate from the meeting

Scrum Meeting absences - Scrum meetings are an integral part of the process and should not be missed when possible

Actions to Start Doing:

Better communication - understanding each others code better so we can integrate more efficiently

Actions to Keep Doing:

Pace - the pace we are working at seems to be working
user stories - are user stories are be completed to our liking

Work Completed:

Successful integration of parts (graph, sound, data)
Django framework working
CSV file not yet implemented, first task of sprint 4

Work Completion Rate:

4 user stories
8-12 hour work week
